

**TWIN IMAGING TECHNOLOGY PARTICIPATES IN BREAST CANCER
AWARENESS/RESEARCH SCRAPBOOKING FUND RAISING EVENT.**

Carlsbad, CA, October 9, 2003 – **Twin Imaging Technology** was proud to participate in **Ever After Scrapbooks** 2nd annual Survivor Crop 2003 (October 4-5, 2003). What is Survivor Crop, you ask?

Survivor Crop is the creative inspiration of John and Camille Akin, the owners of Ever After Scrapbooks, located in Carlsbad, CA. This 24 hour "crop" brought together many scrapbook enthusiasts from all over the San Diego area. The purpose of the crop was fun and fellowship, but more importantly to help raise money for Breast Cancer Awareness, Research, and Education.

Twin Imaging Technology provided digital imaging of the scrapbook pages created during the event. The imaged pages will appear on the Ever After's website (www.everafterscrapbooks.com) for you to view.
